

### Material:

- Dish, D-ring and nut/ring: Die-cast zinc, chrome plated.
- Cam: Steel, Zinc plated.

### Notes, Tests:

Other cams on request.

On request, the handle can be provided with your logo. See drawing.

Sturdy quarter-turn with recessed D-ring that is lifted and then turned to open or close. Equipped with holes for tamper-evident seals (not included) and has an audible and tactile "click" in the open and closed positions. The housing has a steep thread, making installation quick, as a turn of only 30° is enough to secure the latch to the sheet metal door using the large threaded ring.

Fits door thickness 0-3 mm.

## D-Ring Latch, Vibration Resistant (AAAAAAA-LLLL)

AAAAAAA	Cam	-LLLL	H/L in mm
